1 Rethinking the design of the Internet: the end-to-end arguments vs. the brave new world

Marjory S. Blumenthal, David D. Clark
August 2001 **ACM Transactions on Internet Technology (TOIT)**, Volume 1 Issue 1
Publisher: ACM Press
Full text available: pdf(176.33 KB) Additional Information: full citation, abstract, references, c

This article looks at the Internet and the changing set of requirements for the Internet as it becomes more co of purposes. We discuss a set of principles that have guided the design of the Internet, called the end-to-end requirements now emerging could have the consequence of compromising the Internet's original design princi

Keywords: ISP, Internet, end-to-end argument

2 Research tools: SATIRE: a software architecture for smart AtTIRE

Raghu K. Ganti, Praveen Jayachandran, Tarek F. Abdelzaher, John A. Stankovic
June 2006 **Proceedings of the 4th international conference on Mobile systems, applications an**
Publisher: ACM Press
Full text available: pdf(655.19 KB) Additional Information: full citation, abstract, references, ir

Personal instrumentation and monitoring services that collect and archive the physical activities of a user hav entertainment purposes. A general software architecture is needed to support different categories of such mo implementation, and preliminary evaluation of SATIRE, a wearable personal monitoring service transparently

Keywords: human activity identification, personal monitoring, smart attire

3 Columns: Risks to the public in computers and related systems

Peter G. Neumann
January 2001 **ACM SIGSOFT Software Engineering Notes**, Volume 26 Issue 1
Publisher: ACM Press
Full text available: pdf(3.24 MB) Additional Information: full citation

4 The Cricket location-support system

Nissanka B. Priyantha, Anit Chakraborty, Hari Balakrishnan
August 2000 **Proceedings of the 6th annual international conference on Mobile computing and n**
Publisher: ACM Press
Full text available: pdf(1.22 MB) Additional Information: full citation, abstract, references, c

This paper presents the design, implementation, and evaluation of Cricket, a location-support system for in-bu running on mobile and static nodes to learn their physical location by using listeners that hear and analyze inf result of several design goals, including user privacy, decentralized administrat ...

5 Computing curricula 2001

September 2001 **Journal on Educational Resources in Computing (JERIC)**

Publisher: ACM Press

Full text available: pdf(613.63 KB) html(2.78 KB) Additional Information: full citation, references, citings, index terms

6 Fast detection of communication patterns in distributed executions

Thomas Kunz, Michiel F. H. Seuren

November 1997 **Proceedings of the 1997 conference of the Centre for Advanced Studies on Collabor**

Publisher: IBM Press

Full text available: pdf(4.21 MB) Additional Information: full citation, abstract, references, ir

Understanding distributed applications is a tedious and difficult task. Visualizations based on process-time diag the application. The visualization tool we use is Poet, an event tracer developed at the University of Waterloo. user with the desired overview of the application. In our experience, such tools display repeated occurrences c

7 Proxy-based acceleration of dynamically generated content on the world wide web: An approach and im

Anindya Datta, Kaushik Dutta, Helen Thomas, Debra Vandermeer, Krithi Ramamritham

June 2004 **ACM Transactions on Database Systems (TODS)**, Volume 29 Issue 2

Publisher: ACM Press

Full text available: pdf(927.23 KB) Additional Information: full citation, abstract, references, ir

As Internet traffic continues to grow and websites become increasingly complex, performance and scalability a dynamic content generation applications to provide website visitors with dynamic, interactive, and personalize each request requires computation as well as communication across multiple components.To address these iss

Keywords: Edge caching, caching dynamically generated content, fragment caching, implementation, proxy c

8 Special issue: AI in engineering

D. Sriram, R. Joobbani

April 1985 **ACM SIGART Bulletin**, Issue 92

Publisher: ACM Press

Full text available: pdf(8.79 MB) Additional Information: full citation, abstract

The papers in this special issue were compiled from responses to the announcement in the July 1984 issue of being shown in this area is reflected in the sixty papers received from over six countries. About half the paper

9 Illustrative risks to the public in the use of computer systems and related technology

Peter G. Neumann

January 1996 **ACM SIGSOFT Software Engineering Notes**, Volume 21 Issue 1

Publisher: ACM Press

Full text available: pdf(2.54 MB) Additional Information: full citation

10 Special issue on persistent object systems: Orthogonally persistent object systems

Malcolm Atkinson, Ronald Morrison

July 1995 **The VLDB Journal — The International Journal on Very Large Data Bases**, Volume 4 Iss

Publisher: Springer-Verlag New York, Inc.

Full text available: pdf(5.02 MB) Additional Information: full citation, abstract, references, c

Persistent Application Systems (PASs) are of increasing social and economic importance. They have the poten data and programs. Typical examples of PASs are CAD/CAM systems, office automation, CASE tools, software

Orthogonally persistent object systems are intended to provide improved support for the design, construction,

Keywords: database programming languages, orthogonal persistence, persistent application systems, persist

11 A structural view of the Cedar programming environment

Daniel C. Swinehart, Polle T. Zellweger, Richard J. Beach, Robert B. Hagmann
August 1986 **ACM Transactions on Programming Languages and Systems (TOPLAS)**, Volume 8 Issue

Publisher: ACM Press

Full text available: pdf(6.32 MB) Additional Information: full citation, abstract, references, c

This paper presents an overview of the Cedar programming environment, focusing on its overall structure—th Cedar supports the development of programs written in a single programming language, also called Cedar. Its activities include experimental programming and the development of prototype software systems for a high-p

12 User evaluation of Fischlár-News: An automatic broadcast news delivery system

Hyowon Lee, Alan F. Smeaton, Noel E. O'connor, Barry Smyth
April 2006 **ACM Transactions on Information Systems (TOIS)**, Volume 24 Issue 2

Publisher: ACM Press

Full text available: pdf(1.25 MB) Additional Information: full citation, abstract, references, ir

Technological developments in content-based analysis of digital video information are undergoing much progr demonstrated. Yet because we do not yet have robust operational video retrieval systems that can be deploye informed iterative system design is thus not possible. Fischlár-News is one of the first automatic, content-base

Keywords: User-evaluation, content-based video retrieval, usage analysis

13 Human-computer interface development: concepts and systems for its management

H. Rex Hartson, Deborah Hix
March 1989 **ACM Computing Surveys (CSUR)**, Volume 21 Issue 1

Publisher: ACM Press

Full text available: pdf(7.97 MB) Additional Information: full citation, abstract, references, c

Human-computer interface management, from a computer science viewpoint, focuses on the process of devel design, implementation, execution, evaluation, and maintenance. This survey presents important concepts of representation, interactive tools, rapid prototyping, development methodologies, and control structures. *Dialo*

14 NSF workshop on industrial/academic cooperation in database systems

Mike Carey, Len Seligman
March 1999 **ACM SIGMOD Record**, Volume 28 Issue 1

Publisher: ACM Press

Full text available: pdf(1.96 MB) Additional Information: full citation, index terms

15 Illustrative risks to the public in the use of computer systems and related technology

Peter G. Neumann
January 1992 **ACM SIGSOFT Software Engineering Notes**, Volume 17 Issue 1

Publisher: ACM Press

Full text available: pdf(1.65 MB) Additional Information: full citation, citings, index terms

16 Virtual machines: ReVirt: enabling intrusion analysis through virtual-machine logging and replay

George W. Dunlap, Samuel T. King, Sukru Cinar, Murtaza A. Basrai, Peter M. Chen
December 2002 **ACM SIGOPS Operating Systems Review**, Volume 36 Issue SI

Publisher: ACM Press

Full text available: pdf(1.56 MB) Additional Information: full citation, abstract, references, c

Current system loggers have two problems: they depend on the integrity of the operating system being logge attacks that include any non-deterministic events. ReVirt removes the dependency on the target operating sy machine. This allows ReVirt to replay the system's execution before, during, and after an intruder compromise

17 Network Protocols

Andrew S. Tanenbaum
December 1981 **ACM Computing Surveys (CSUR)**, Volume 13 Issue 4
Publisher: ACM Press
Full text available: pdf(3.37 MB) Additional Information: full citation, references, citings, index terms

18 GPGPU: general purpose computation on graphics hardware

David Luebke, Mark Harris, Jens Krüger, Tim Purcell, Naga Govindaraju, Ian Buck, Cliff Woolley, Aaron Lefohn
August 2004 **Proceedings of the conference on SIGGRAPH 2004 course notes SIGGRAPH '04**
Publisher: ACM Press
Full text available: pdf(63.03 MB) Additional Information: full citation, abstract

The graphics processor (GPU) on today's commodity video cards has evolved into an extremely powerful and f memory bandwidth and computational horsepower, with fully programmable vertex and pixel processing units High level languages have emerged for graphics hardware, making this computational power accessible. Archi

19 Risks to the public in computers and related systems
